SHIP'S MAIN CHARACTERISTICS

Name : **ALIOTH**
IMO No. : **9346421**
Call Sign : **3EA5155**
Gross Tonnage : **8,407**
Type of Ship : **General cargo**
Flag : **PANAMA**
Ship Manager : **GLOBAL MARITIME SHIP MANAGEMENT INC.**
Company ID No. : **0216257**

SUBJECT: Interim International Ship Security Certificate No. IT-26ML-P000600ISSC, issued by Nippon Kaiji Kyokai at Manila on 07-Feb-2026, expiring 06-Aug-2026.

Please note the subject vessel is presently on an uninterrupted sea passage, and no attending auditor can be arranged while the vessel remains underway. The initial ISPS verification could therefore not be carried out at a suitable port before the due date.

Vessel's next port is Jeddah, Kingdom of Saudi Arabia, with an ETA of 20-Aug-2026, where the initial ISPS verification will be held by the ClassNK Jeddah Office together with the initial ISM audit and MLC inspection in one attendance.

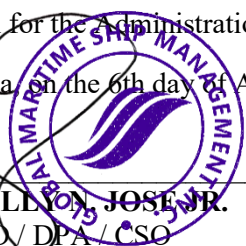

In this case, we kindly request the Administration's agreement to **extend the Interim ISSC and postpone the initial ISPS verification until 05-Oct-2026, administratively** — being the same limit already granted to this vessel under Authorization Letter SEG-108985 dated 06-Aug-2026 in respect of the initial SMC audit and MLC inspection.

The RSO statement issued by the ClassNK Ship Management Systems Department in support of the INITIAL OVERDUE application is enclosed for the Administration's reference.

On issue, the consecutive Interim ISSC will be forwarded to ClassNK and to the vessel, and kept on board together with SEG-108985 for production to Port State Control.

We are grateful for the Administration's assistance and remain at your disposal.

Issued at Manila on the 6th day of August 2026.

CAPTAIN RELLYON JOSE JR.
